

I am on the National DO NOT CALL list. Yet, I continually get UNSOLICITED FAXES from companies at my residence at all hours of the night, early morning, and day. The latest fax was from a company called RSA (that is what they told me). Their contact numbers are 877.623.8473 and 702.995.0220 (fax). They said that they got my phone number from a list provider company called EZLead (www.ezlead.net). They said that they would have me removed from their list, but it seems like a losing battle.... Please FINE them, put these kind of companies out of business, and make them stop harrassing people.
